SUMMARY

I am a Front-End developer looking for a permanent position in a promising energetic active company in which I will enjoy my work. I am versed in the following technologies: JavaScript(ES6), HTML5, CSS, and React.js, I have a basic knowledge of Node.js. In addition, I have experience in writing Pet-projects and Team-projects. A responsible team player, attentive to details. I study quickly, and responsibly, and I understand that I can cope with the task and am ready to solve difficulties.
